Experiences

July 2023 -August 2023 : BAFA : Theoretical internship and practical internship in holiday camps. I gained some really enriching experience, having to work in team, managing and animating activities, having the responsibility of the kids...

June 2021-July 2022 : I used to help and work at a local business of dairy products in Haiti (family business). I was the manager's assistant and was helping with managing fresh stocks and make sure the deliveries and shipping go well.

2023 : I work as a babysitter when I am free for kids between three and fourteen years old.

Profile

Thanks to my double culture, French and Haitian I have been lucky to take part on multiple journey across the world, I have a keen interest to learn about different cultures, talk with other people which helped me develop my communication skills. This enables me to become a valuable asset to the company and the team. As mentioned earlier I have experience working with a team but also with clients, who taught me and refined my social and management skills. I have played a long time in a football club as a midfielder, being the center of the team, the one who creates the game, I have a sense of responsibility and reliability of comrades. Finally I am a dynamic and driven individual, I work intelligently and efficiently.
